STECK = PIANOS.

RICHARD WAGNER AT THE STECK GRAND IN HIS STUDIO AT BAYREUTH.

The fine Grand Piano of George Steck & Co., of New York, which I have obtained, is where acknowledged to be excellent. My great friend, Franz Liszt, expressed the liveliest action after he had played upon it. The magnificent instrument has taken up its useful place in my home, where it will ever serve for my pleasant entertainment."

The San Diego Chamber of Commerce is a live, active working organization, doing splendid work for San Diego county. A free permanent exhibit of the products of the back country is maintained in the spacious rooms of the Chamber of Commerce, and is constantly replenished by the horticultural societies and individual contributions of the county, and is kept fresh and attractive, and is a source of great interest to all strangers, who are not familiar with San Diego country productions. In fact, the Chamber of Commerce in this city is the centre around which everything that pertains to the commercial and material interests of the public gathers, either at home or abroad. The membership is large and influential, and take an active interest in its affairs, and give that support to the management which should characterize a live enterprising people. With such a people and such a Chamber San Diego is bound to prosper.

THIS is the name of one of the finest ranches in the County, embracing 13,000 acres of choice farming land which have been sub-divided into small tracts of from one acre upwards. It is the center of a large number of rich valleys, and being the terminus of the great Atchison, Topeka & Santa Fe Railway system is the natural distributing point for them all. The town of Escondido is situated upon one of the finest slopes on the tract, commanding a fine view of the whole, and possesses commercial, religious and educational privileges that are a credit to and evidence of the character and enterprise of its citizens.
